DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. In response to the Amendment received on March 7, 2008, the examiner has carefully considered the amendments.

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Response to Arguments

4. Applicant's arguments, see Remarks/Translation, filed March 07, 2008, with respect to claims 4-5 have been fully considered and are persuasive. The rejection of claim 4 under 35 USC 102(e) as being anticipated by WO 01/48100 has been withdrawn. The rejection of claim 5 under 35 USC 103(a) as being unpatentable over WO 01/48100 in view of EP 892024 has been withdrawn. The rejection of claim 4 under 35 USC 103 (a) as being unpatentable over Nguyen et al (5,992,202) in view of Sano et al (5,769,930) has been withdrawn. The rejection of claim 5 under 35 USC 103(a) as being unpatentable over Nguyen et al (5,992,202) in view of Sano et al(5,769,930) in further view of EP 892024 has been withdrawn.

Applicant's translation of Foreign Priority document JP 2000-335969 has been made of record. And as such applicant has perfected a priority date prior to the publication/patent date of WO 01/48100. Therefore the rejections deemed anticipated by and those deemed unpatentable of over WO 01/48100 has been withdrawn.

It is deemed, in view of applicant's arguments and the teachings of 5,992,202, that Nguyen et al fails to teach a sulfonyl group containing (co) polymer in the form of an emulsion in the ink composition, but instead a sulfonyl group containing polymer made via an emulsion polymerization process. Nguyen et al fails to teach, alone or in combination, using a sulfonyl group containing copolymer in an emulsion in an inkjet ink composition. The teachings of Sano et al and EP 892024 fail to overcome this deficiency of Nguyen et al, therefore the instantly claimed invention of claims 4-5 is distinguished over the prior art made of record.

Allowable Subject Matter

5. Claims 4-5 are allowed.
6. The following is an examiner's statement of reasons for allowance: The prior art, alone or in combination, fails to teach an aqueous ink composition comprising a non-diene-based acryl-based sulfonyl group-containing copolymer in the form of an emulsion as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanza L. McClendon whose telephone number is (571) 272-1074. The examiner can normally be reached on Monday through Friday 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on (571) 272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
